# BABY CHANGING STATIONS

## Koala ... It's how public establishments say "welcome" to children and their parents.

Koala is the recognized worldwide child care expert at the forefront of the family friendly culture for public establishments, helping architects, interior designers and operators put out the welcome mat to children and their parents for two decades. As the family friendly concept has evolved, Koala Baby Changing Stations, always a staple in women's and men's restrooms, are now equally appropriate in common areas and family restrooms.

## Selection and Specification

- Equipped with full-length steel-on-steel hinges with 11-gauge steel mounting supports.
- Complies with consumer safety performance specifications in ASTM F 2285-04 with third-party confirmation of testing.
- Provides smooth, concave changing surface resulting in comfort for the baby as well as maintenance cost containment with the absence of pinch points, crevices and other dust and dirt collection areas.
- Constructed of high-density polyethylene with stable embedded anti-microbial technology which inhibits the growth of bacteria that can cause stains, odors, and product degradation.
- Includes replaceable nylon safety straps, hooks for bags and purses, instructional graphics and Braille.
- Built-in Sanitary Bed Liner Dispensers included with each model.

## Microban® protection: a Koala Baby Changing Station exclusive.

Microban technology is built into Koala Baby Changing Stations and becomes an intrinsic part of the Station. When

microbes, such as bacteria, mold and mildew which can cause stains, odors and product deterioration come into contact with the station surface, Microban protection penetrates the cell wall of the microbe and disrupts key cell functions so that the microbe cannot function, grow or reproduce. Microban ensures Koala Baby Changing Stations retain their sanitary condition between cleanings. Please see Microban Technical Bulletin, TB-12.
